

PENALISTS COMMENTS	COMPLIANCE
1. Indicated Test standards adopted in the methodology.	See chapter three, each test done has a standard attached to it.
2. Revise your cost benefit analysis.	See page 63 and 64, table 9.
3. Connect the research with the final output. Therefore, you should work on the design for the project, because there is no design for the work.	See page 33.
4. Be precise on the quality of the briquettes in terms of day required for it to dry.	See page 32, in the procedure.
